WABCO FITTINGS PROMOTION

WABCO

Promotion runs from May 1st until August 1st 2011

FITTING CASE DETAILS & PRICES

PRODUCT INFO

Our fitting case 893 000 200 0 is ideal for any workshop or service vehicle, with all major threaded fittings ready to use and well organised.

- 26 different couplings often required for repairing or replacing compressed air equipment.
- All couplings clearly marked within the case for easy identification.
- Fittings can be individually ordered from WABCO to re-stock the case.
- Contains New Line fittings.

£269.99+vat

REMOVAL TOOL DETAILS & PRICES

To release the fitting* a dismantling tool in the form of a split fine sleeve is inserted between the pipe and retainer ring. The sleeve holds in the retainer ring and the pipe can be pulled out of the sleeve. The threaded fitting can usually be re-used for several years as long as the seal does not harden. *(New Line fittings only).

Pipe diameter	Metal removal tool	Net price (single)
8 x 1.0	899 700 012 4	£42.30
12 x 1.5	899 700 014 4	£42.30
15 x 1.5	899 700 015 4	£45.50
16 x 2.0	899 700 016 4	£45.50
